for Trusted Blockchain Applications

CLIMATE **LEDGER**  
INITIATIVE

# Blockchain

## for Climate Action & the Governance Challenge

**3 NOVEMBER** 16:00-17:30 CET  
10:00-11:30 am EST

Organized by the INATBA Climate Action Working Group  
in cooperation with Climate Ledger Initiative (CLI).

The event aims to provide an overview of relevant governance challenges for practitioners from the climate policy and blockchain world as well as to get feedback and input from participants. Moreover, the Webinar presentations and discussions will feed into a knowledge piece on governance that is useful for practitioners to be published in early 2021, key findings may be mentioned in the next CLI flagship report on “Navigating blockchain for Climate Action”, to be published in December 2020.
